

Vinod Shatrughan Kandale

Email: - vinodkandle57@gmail.com

Mobile Number: - 9970707598

Summary:

Seeking a challenging and rewarding position as a **Software Test Engineer** with **Automation Testing** strong will to prosper in any assigned duties. Passion to quickly learn and adjust to new environments and technologies.

Professional Summary:

- 1+ years of experience in Manual and Automation Testing using Selenium web driver, Maven, TestNG and Non-Functional testing using JMeter.
- Extensive working experience on all phases of **SDLC**, **STLC** and methodologies such as **Agile SCRUM**.
- Domain Knowledge of **Banking and Insurance** Architecture.

Automation Testing:

- Proficient in Test Automation using **Selenium Web Driver Tool**.
- Experience in working on **Page Object Model** Design pattern with **Page Factory**.
- Experience in the test script development of **Data driven** framework, **Hybrid** frameworks in **Selenium**.
- created in **Selenium WebDriver** using **Java** and Executed test scripts on **Google Chrome**.
- Profound Knowledge of **Identifying Web Elements** by using different **Locators** like **XPath**, **CSS Selector**.
- Maintained the **Selenium & JAVA automation code** and resources in source controls like **GitHub** over the time for improvements and new features.
- Sound knowledge on **Object Oriented Programming** (OOP) concept. Extensively used Java for test case automation.
- Sound knowledge on **TestNG** framework and Worked on **Data driven testing approach**.
- Good experience of build tools like **Maven** and managing JAVA automation projects using them.
- Good experience in creating, modifying, and enhancing both manual **Test cases** and **Test Scripts**.
- Expertise in **end-to-end automation development** and testing of **web based** applications.

Manual Testing:

- Experienced in all phases of Software Testing Lifecycle with expertise in the **Integration** and **Functional**, **Database**, **User Interface**, **Regression testing** and, **Sanity Testing**.
- Involve in **Test Scenario Identification**, **Test case design**, **Test case review**, **Test case execution**, **Defect tracking** and **reporting**.
- Good knowledge in **Software Development Life Cycle**, **Testing Concepts** and **Testing Methodologies**.
- Excellent Understanding of **Defect status life cycle**.
- Having good experience in **UNIX** commands.

Non-Functional Testing:

- Experience in **JMeter**, handling **parameterization, correlation, assertion, Listener**

Technical Skills:

Tool	: -	Selenium (TestNG, Selenium WebDriver), JMeter
Testing knowledge	: -	Functional, Non-Functional, Regression, Retesting.
Operating Systems	: -	Windows, Linux.
Languages	: -	Core Java.
Web Technologies	: -	HTML, CSS.
Test Framework	: -	TestNG, Data Driven Framework.
Build Management Tool	: -	Maven.
Bug Tracking Tool	: -	JIRA.

Education Qualification:

Degree	Institute/Board
B.E(Comp)	S. R. T. M. U. Nanded
C-DAC	MET college Mumbai

IT Experience:

- Did C-DAC since 20-August-2019 to 01-February-2020
- Currently working as a **QA Engineer** with **Quality-Kiosk Pvt Ltd, Mumbai** Since 20 October 2020 to 22 July 2022.

Project 1

Project Name	HDFC Service Ltd
Technology used	Java, J2ee, SQL Server.
Testing	Non-Functional Testing, Automation Testing
Testing Tools	Selenium web driver, JMeter
Test Management Tool	JIRA

Description:

HDFC Bank provides a number of products and services including **wholesale banking, retail banking, treasury, auto loans, two-wheeler loans, personal loans, loans against property, consumer durable loan, lifestyle loan and credit cards.**

Responsibilities:

- Preliminary discussion of the Project with the Core Team.
- HDFC service portal project based on Non-functional testing in which **Stress Testing, Load testing, Soak Testing** performed.
- Responsible for writing and maintain **JMeter scripts record** for **Stress and Load testing** using **JMeter HTTPS Test Script recorder**

- Responsible for identifying **dynamic values** and doing **correlation** by using **Boundary extractor** or **Regular expression**.
- Responsible for identifying **Parameters** and doing parameterization by using **CSV Data Set Config**
- Responsible for identifying appropriate response message and doing validation by using **Response Assertion**.
- Responsible for identifying pause and add **Constant Timer**.
- Successively add Listener **View Result Tree** to see the result.

Project 2

Project Title	Customer Portal for Motor Insurance
Technology Used	Java, J2ee, and Oracle 9I, CRM.
Roles	Functional Testing, Database Testing.
Testing	Functional, Non-Functional, Regression, Database Testing
Test Management Tool	JIRA

Description: -

Motor Insurance is a type of insurance policy which covers your vehicles from potential risks financially. Policyholder's car or two-wheeler is provided financial security against damages arising out of accidents and other threats. In India, motor insurance is mandatory. A private car insurance is bought by personal car owners using their car for personal use. There are different types of policies which a car owner can choose. A commercial car insurance is to be bought by people who own taxis or use their car for commercial purposes.

We are providing a solution for customer to buy renew their insurance online. also, we provide solutions like customer want to change their payment methods, their address.

Responsibilities:

- Preliminary discussion of the Project with the Core Team.
- Responsible for writing and maintain **Selenium Web Driver** scripts for regression and **functional testing** using **Data Driven Framework**.
- Developed test code in Java language using **Eclipse IDE** and **TestNG framework**.
- Responsible for identifying test cases for manual and Automation with Selenium Web Driver for Smoke Test, Functional and Regression Tests.
- Used the **XPath** and **CSS Selector** of the web elements locator identification.
- Involved in design and implementation of **Selenium Web Driver** automation framework for smoke and regression test suites (TestNG and Maven).
- **Identified, Reported** and **Tracked Defects** using **JIRA** test management tool.
- Execute browser compatibility and regression tests using **Selenium WebDriver** for testing UI for every new build release.

Personal Details

DOB	: 20-06-1993
Gender	: Male.
Marital Status	: Married.
Language known	: English, Hindi and Marathi.
Address	: At Post Lodga, Ta Ausa, Dist Latur - 413512.

Declaration:

I hear by declare that the data furnished above by me are true to the best of my knowledge.
